

CONDOR Thermal Monocular

Ultimate Performance

Precision meets performance in the HIKMICRO CONDOR and CONDOR 2.0 thermal monoculars, purpose-built for hunters and professionals who demand accuracy, clarity, and reliability. Both models feature compact, ergonomic designs and deliver exceptional thermal imaging for spotting, tracking, and identifying targets in any environment. Lightweight, durable, and IP67-rated for all-weather use, the CONDOR series is the trusted thermal solution for demanding outdoor conditions.

	Model	Sensor	Magnification	FOV-H (@100m)	Identification/ detection range	RRP
CONDOR 2.0	CQ50L 2.0	640 × 512, 12 μm NETD < 15mK	1.9x-15.2x (8x)	15.4m	600m 2600m	\$5,299

FALCON Thermal Monocular

Mastery Made Easy

Designed for serious outdoor professionals, the HIKMICRO FALCON and FALCON 2.0 thermal monoculars set a new benchmark in thermal imaging performance. Built with ultra-sensitive thermal sensors and cutting-edge image algorithms, both series deliver unmatched clarity, even in the most challenging conditions. With IP67-rated weatherproofing, long battery life, and intuitive controls, the FALCON series is built for those who demand peak thermal performance, anytime, anywhere.

	Model	Sensor	Magnification	FOV-H (@100m)	Identification/ detection range	RRP
FALCON 2.0	FQ50L 2.0	640 × 512, 12 μm NETD < 15mK	2.7x-21.6x (8x)	15.4m	600m 2600m	\$5,699

HABROK Multi-Spectrum Binocular

24/7 Compact Game Partner

HIKMICRO HABROK series redefines versatility in the field, combining thermal imaging, digital day/night vision, a laser rangefinder, and photo/video recording all in one powerful, compact binocular system. Built for hunters, search and rescue teams, and outdoor professionals, HABROK delivers unmatched situational awareness in any lighting or weather condition. Rugged, lightweight, and ergonomically designed, the HABROK series is your all-in-one solution for long-range observation and target detection day or night, near or far.

LYNX 3.0 & LYNX S Thermal Monocular

Lightweight & Compact

Engineered for precision and performance, the HIKMICRO LYNX 3.0 & LYNX S thermal monoculars deliver exceptional thermal imaging in a compact, rugged design. Whether you're hunting, surveying, or navigating in total darkness, both models offer crystal-clear thermal imagery, fast start-up times, and intuitive operation. Lightweight, durable, and IP67 weatherproof, the LYNX series is your trusted companion for any thermal mission day or night.
